

FAIL IN EFFORT
TO AVERT STRIKELabor Leaders Announce
First of Remington Mach-
inists Will Quit Today

PREDICT COMPLETE TIEUP

State All Work in Remington
Shops and Those of Sub-Con-
tractors Will Be Stopped

GOMPERS CALLS CONFERENCE

BRIDGEPORT, Conn., July 19.—
Negotiations to bring about a settle-
ment of the difficulties between the
machinists of Bridgeport plant of
the Remington Arms and Ammu-
nition company, have failed.

Labor leaders announced tonight
that the first of the machinists would
throw down their tools and walk out
at noon tomorrow twenty four hours
from the original time set for the
beginning of the strike. They added
that within a week all work in the
Remington shops and in the shops
of sub-contractors would be at a
standstill. Just how far the strike
might spread in other manufactur-
ing communities of New England,
the labor leaders were unable to
estimate.

Will Not Heed Call.
J. J. Keppler, international vice-
president of the machinists' union,
when advised of the call for a con-
ference issued tonight in Washing-
ton by Samuel Gompers, president
of the American federation of labor,
said that he and other labor leaders
here would pay no attention to any
such call.

Neither Samuel Gompers nor the
president of the United States can
stop this strike now," he said.

Johnston Makes Announcement.
The announcement was made by
Mr. Keppler and John A. Johnston,
vice-president of the Structural Iron
Workers after a meeting in the mach-
inists hall which was attended by
members of the machinists' union
and by more than a dozen heads of
international labor organizations.
Mr. Keppler and Mr. Johnston were
the committee appointed Friday by
the machinists to present their de-
mands to Major W. G. Peckfield,
works manager of the Remington
company. Mr. Johnston, surrounded
by a half dozen labor leaders in-
cluding Mr. Keppler, made the an-
nouncement. He said:

"At four o'clock this afternoon,
the last moment of the time we
agreed to allow the man I conferred
with in New York in which to ar-
range a settlement, if he possibly
could, I was called on the telephone.
The man said this to me: 'I can not
do anything. I have tried my best.
You can suit yourself as to any
action you will take.'"

"I cannot tell you the name of
the man. Had he brought about a
peaceful settlement I was prepared
to give him the credit. But as he
has failed it is best that his name
remain unknown. He has inter-
ests here, and to divulge his name
might do him harm in a business
way in the future."

Strike Will Start at Noon.
"The strike will start at noon to-
morrow. We first will pull all of
the men out of the new Remington
plant. That includes all machinists,
die sinkers, die makers, drop for-
gers and tool makers."

It was said that it was planned
to have in the neighborhood of 500
men walkout at first. Then one af-
ter another of the various shops
would be emptied of machinists.
The hod-carriers working on the new
buildings being erected by the Stew-
art Construction company for the
Remington company have already
taken a strike vote to follow the
machinists out. There are six hun-
dred hod-carriers employed at the
plant. In addition there is one sub-
contracting shop, which the leaders
declined to name, where the mach-
inists will walk out tomorrow.

Gompers Calls Conference.
Washington, July 19.—Samuel
Gompers, president of the American
Federation of Labor, announced to-
night that he had called conference
of officers of the International As-
sociation of Machinists to meet with
him in Washington to consider the
strike order at the Remington Arms
& Ammunition company's plant at
Bridgeport, Conn.

In calling the conference, Mr.
Gompers said it was his purpose to
use every resource at his command
to prevent a general strike.

KAISER ON EVE OF

DELIVERING COUP

London, July 19.—The Morning
Post's Petrograd dispatch says that
Emperor William has sent his sister,
the queen of Greece, the following
telegram:

"I have paralyzed the Russians
for at least six months and am on
the eve of delivering a coup on the
western front that will make all Eu-
rope tremble."

FIRE PREVENTION WILL
BE TAUGHT IN SCHOOLSFIRE MARSHAL IS HAVING SUITABLE
TEXT BOOK PREPAREDIf Lessons Are Carefully Learned
Mr. Bennett Estimates They Will
Result in an Annual Savings of
\$10,000,000—Blair's Co-operation
Makes Plan Possible.Springfield, July 19.—Fire pre-
vention is to be taught in the public
schools of Illinois with the opening
of the fall term. So that a uniform
system of teaching may be adopted
Walter H. Bennett, state fire mar-
shal, is having a suitable text book
prepared. The co-operation of
Francis G. Blair, state superintend-
ent of public instruction, has made
the fire marshal's plan possible, ac-
cording to Mr. Bennett, in a state-
ment issued today.

Estimates Saving of \$10,000,000.
If the lessons embodied in the
bound book are carefully learned
Mr. Bennett estimated they will re-
sult in an annual savings of \$10,-
000,000.

"Seventy-five per cent of the fires
in Illinois are preventable," said Mr.
Bennett. "If the people of the state
do what we tell them I haven't the
slightest doubt but that the vast
majority of these preventable fires
would not occur."

Some of the lessons in the new
school book will deal with the
mat, kerosene, gasoline, oil
lamps, chimneys and flues.

Ways to Avoid Danger From
Lightning.
One of the lessons will deal with
ways to avoid danger from light-
ning. Some of the questions and
answers suggested for this lesson
follow:

"Why is it necessary to avoid
proximity to water and streams
during lightning?"

"Because water, being a good
conductor, a person standing near
it, being also a good conductor,
might determine the discharge."

"Why is the middle of a room
the safest place?"

"Because it is removed from con-
ducting surfaces, such as bright
mirrors, bell wires, walls, cornices,
etc."

"Why is it advisable to stand on
a thick hearth rug or on a hair mat-
tress?"

"Because being dry, and non-con-
ducting bodies, they would insulate
the human body and prevent the
electricity from passing to it."

"Is it dangerous to stand near a
lightning conductor?"

"It is not dangerous, because the
electricity would not leave the metal
conductor to pass through a
worse conductor."

Dangers From Bonfires.
According to the 1914 report of
the fire marshal 55 children were
burned to death by having their
clothes set on fire from bonfires.

Lesson No. 8 in the new book will
deal with bon fires and their dan-
gers.

Lesson No. 9 will deal with spon-
taneous combustion, explaining
what makes it possible and how to
avoid it. The children are to have
explained to them just what chemi-
cal action occurs when greasy rags
piled up in a close closet burst into
flames without the aid of an outside
agency.

"There are very few fires in Ger-
many which might be classed as
preventable," said F. R. Morgridge,
assistant state fire marshal, who is
at work on the new text book. "The
Germans do not consider a fire in
their homes a misfortune; rather
they consider it a disgrace—and a
cause for punishment by the author-
ities."

There are fewer fires in the
towns of Columbia and Waterloo,
than in any other towns of that size
in Illinois. The population is com-
posed chiefly of Germans, or of
people of German descent."

TO MAKE EFFORT TO ARRANGE EARLY
HEARING OF INJUNCTION CASESPRINGFIELD, Ill., July 19.—
Attorney F. F. Munro of Highland
Park, who recently filed suit attacking
the validity of the appropriation
bills passed by the last general as-
sembly, and representatives of the
attorney-general's office will ap-
pear before Judge Creighton in the
circuit court tomorrow morning in
an effort to arrange a hearing in the
case for the July term of court.

The hearing at present is set for
the September term. A week ago
State Treasurer Russell proposed that
the parties concerned get together
and arrange for an earlier hearing,
so that the pay of state employees
would not be held up.

SHE IS A WISE WOMAN.

Who recognizes in the tell-tale
symptom such as headache, head-
aches, dragging sensations, nervous-
ness and irritability the true cause
and relies on Lydia E. Pinkham's
Vegetable Compound to restore her
to a healthy normal condition. For
forty years this root and herb reme-
dy has been pre-eminent successful
in controlling the diseases of wom-
en. Merit alone could have stood
such a test of time.—Advertisement.

SEIZE RIFLE AMMUNITION.

New Orleans, July 19.—United
States customs officials have seized
here 61,000 rounds of rifle ammu-
nition consigned to General Carranza,
it became known tonight. It also
was said that a customs official had
been placed aboard a Carranza vessel
in port here to prevent any neutral-
ity violations.WILSON AND LANSING
PREPARE DRAFT OF NOTEDOCUMENT WILL BE SUBMITTED TO
THE CABINET TODAYNew Note Probably Will Be Sent
Before End of Week—Will Re-
iterate the Position Already Tak-
en by the United States.Washington, July 19.—President
Wilson and Secretary Lansing pre-
pared today the draft of a note on
submarine warfare to be submitted to
the cabinet tomorrow and to be
sent to Germany probably before
the end of the present week.

Will Reiterate Position.

Beyond the fact that the position
already taken by the United States
in its previous notes would be re-
iterated no information was forth-
coming at either the white house or
state department concerning the
probable contents of the new note.
The president cautioned those
with whom he counseled to refrain
from discussing the note in advance
of its despatch to Germany and
white house officials particularly
requested the correspondents to
avoid speculation in detail at this
time because the character of the
document had not been finally de-
termined.

The note, it is understood, will
be comparatively brief, expressing
the conclusions of this government
as a result of Germany's failure to
give the assurances asked for in
previous notes, namely that the
lives of Americans traveling on the
high seas bound on lawful errands
aboard unresisting and unarmed
merchantsmen be not endangered.

May Request Investigation.

As yet the case of the British
Liner Orduna, attacked by a Ger-
man submarine has not been
brought officially to the attention
of the state department. Secretary
Lansing said today he had expected
word from some of the American
passengers aboard but if this failed
to arrive in another day or two, he
would request one of the depart-
ments of the government to insti-
tute an investigation to obtain ac-
curate information concerning the
incident.

MOTION TO QUASH MURDER
INDICTMENTS IS OVERRULEDBOULDER, Colo., July 19.—Judge
Neil F. Graham, late today over-
ruled a motion to quash the murder
indictments against five labor lead-
ers, growing out of coal strike dis-
orders at the Hecla mine and set
the case for trial August 23rd.

The defense based its argument
on the claim that R. W. Fleming,
district attorney was illegally ap-
pointed to that position to succeed
George A. Carlson, who became gov-
ernor last January. Counsel for the
miners sought to have quashed the
joint information charging conspir-
acy to murder against Edward L.
Doyle, district secretary-treasurer
of the United Mine Workers of Am-
erica; W. T. Hickey, Secretary of
Labor; J. O'Connor, president and
F. J. Potestio, secretary of the Louis-
ville local union and J. Cassidy,
president of the Fayette local union.

SHIFT OF WIND SAVES BUSINESS
DISTRICT OF WEST LEBANONDANVILLE, Ill., July 19.—After
one block had been destroyed a
shift of the wind saved the balance
of the business district at West
Lebanon, Ind., fourteen miles east
of here this afternoon. Companies
of firemen were enroute to the town
from Danville, Attica and other
nearby towns when word was re-
ceived that the danger was averted
by the wind shifting.

J. Y. Crast's garage and harness
shop buildings; the Farmers' Bank
and Masonic Temple were the most
important structures destroyed. The
loss is estimated at \$35,000.

HAIR AND SCALP
NEED DAILY CARE.

If you value the appearance of
your hair you should treat your
scalp as often and well as you brush
your teeth and rub into the scalp
pores twice daily a little Parisian
Sage. This treatment is not a mere
"hair tonic." It is bottled nourish-
ment for the hair roots and it is im-
possibly wonderful what an improve-
ment its use for even a week will make
in the appearance of anyone's hair.
It never injures, is delightfully cool
and pleasant to the scalp and takes
out the dull, lifeless look in the hair,
making it soft, fluffy, glossy and
beautiful. Two or three applica-
tions remove every trace of dandruff,
and daily use will prevent its re-
turn. Sold by Coover and Shreve
and leading druggists everywhere.—

BRITISH OFFICIALS
GO TO CARDIFF.Cardiff, July 19.—The center of
the negotiations in connection with
the great strike of the miners shifted
suddenly to Cardiff tonight with
the arrival here of Minister of Mun-
itions, David Lloyd-George, the
president of the board of trade,
Walter Runciman and the president
of the board of education, Arthur
Henderson for a conference with
the miners' leaders. Mr. Henderson
is leader of the labor party in the
house of commons.

War News Summarized

The mightiest struggle of the
war, in which Austrians and Ger-
mans are making their supreme
effort, is being waged along the
great Russian front, which ex-
tends nearly a thousand miles
from the Baltic to Bessarabia.

In Russian Poland, the center
of the maelstrom, is the territory
around Warsaw, and from the
north and the south, the Aus-
tro-Germans, under the most
successful of German command-
ers, Von Hindenburg and Von
Mackensen, are advancing with
the determination of pressing
back or breaking through the
Russian lines of defense.

Grand Duke Nicholas, the Rus-
sian commander-in-chief, has, if
unofficial reports are to be re-
lied upon, brought up vast num-
bers of troops to meet the sweep
of the Austro-Germans, who,
however, have forced the Rus-
sian front at several points. No
late advances of the progress of
the operations have been re-
ceived, which would seem an in-
dication that no decisive gain
has been made on either side.

In Poland it is estimated that
several million men are engaged
in the battle and the opinion is
expressed by military critics that
should the Russians fail to with-
stand the pressure which is daily
being exerted against Warsaw
with greater weight, they are in
a position to withdraw, even to
the extent of completely evacu-
ating Poland.

A second Italian cruiser has
fallen victim to an Austrian sub-
marine. The Guiseppe Garibaldi,
one of the squadron of four
which bombarded Cattaro, was
torpedoed and sent to the bot-
tom.

The cruiser sank in fifteen
minutes, but most of the crew
were saved.

While comparative quiet pre-
vails along the western front,
the French report that consider-
able losses were inflicted on the
Germans when the French re-
pulsed strong attacks on the
heights of the Meuse. A violent
cannonade near Souchez, the
bombardment of Arras and
fighting with bombs and petards
in the Aronne constituted virtu-
ally all of the fighting that took
place.

MEXICAN CAPITAL IS AGAIN
THREATENED WITH ATTACKCarranza Forces March Hurriedly
Forward to Engage the Advancing
Villa Columns.

Washington, July 19.—Mexico
City is again threatened with at-
tack and the Carranza forces under
General Gonzalez who drove the Za-
pata army from the capital ten days
ago have marched hurriedly north-
ward to engage an advancing Villa
column believed to be planning a
junction with the Zapata troops
menacing communication with Vera
Cruz. State department despatches
today announced that General Gon-
zalez with most of his army had
evacuated Mexico City yesterday,
turning the government over to the
civil authorities. This was just pre-
ceded by advice that General Villa's
flying column which circled Obre-
gon's forces after the battle of Agu-
as Calientes and captured Queretaro
had taken possession of Pachuca
within forty miles of Mexico City
and was marching on the capital.
Simultaneously with the latter re-
port came the news that General
Carranza had taken possession of
Apizaca, a junction point south of
Pachuca and had ordered that it be
held exclusively for transportation of
troops and ammunition, thus pre-
venting further shipment of provi-
sions from Vera Cruz to the needy
thousands at Mexico City.

Officials here made no effort to
conceal their belief that the situa-
tion surrounding the Mexican cap-
ital was a grave one.

TO PROBE ACTIVITIES OF CERTAIN
GERMAN SYMPATHIZERS IN U. S.Department of Justice to Conduct
Investigation at the Instance of
the British Government.

Washington, July 19.—At the in-
stance of the British government
the state department has called on
the department of justice to in-
vestigate the activities of certain
German sympathizers in the United
States who are alleged to have been
employing unlawful means to strike
at Great Britain and her allies.

Until inquiry has developed whether
there is sufficient evidence to
warrant prosecutions no names will
be made public and officials of the
department as well as those of the
British embassy are reticent about
discussing the matter. It is known,
however, that information has
reached the embassy concerning all
kinds of plots ranging from
schemes to wrecked bridges over
which railroad trains were carry-
ing volunteers of the British army
to the incitement of strikes at
American industrial plants making
war supplies for the allies.

JOHN HERRESHOFF DIES.

Bristol, R. I., July 20.—John B.
Herreshoff, president of the Herreshoff
manufacturing company, yacht
builders, died early today. He was
77 years old.CONDITION OF FRANK
REMAINS CRITICALPRISON PHYSICIAN IS STILL DOUBT-
FUL OF CONVICT'S RECOVERYFears Blood Poisoning From Infection—Fact That Green Is Partly
Paralyzed in His Left Arm Prob-
ably Saved Frank's Life.Milledgeville, Ga., July 19.—The
condition of Leo M. Frank, suffer-
ing from a serious knife wound in
the throat inflicted by Wm. Green,
a fellow life term convict at the
Georgia prison farm here, remained
critical tonight. Dr. G. D. Compton,
the prison physician, announced
that he had hopes of Frank's recov-
ery, though blood poisoning from in-
fection was a danger to be feared.

Frank's temperature late today
was announced as 101.8, his circula-
tion as 100 and his respiration as
20. Earlier his temperature was
102.4.

Indicates No Remorse.

Green, questioned further by pris-
on officials today, said he believed
he had been called "from on high"
to kill Frank, whose death sentence
for Mary Phagan's murder recently
was commuted by Governor Slaton,
now retired. He indicated no re-
morse, as he did immediately after
the attack Saturday night.

"I only wish that I had more
strength," Green said. "I think I
have done my duty in this matter,
as well as my strength allowed. I
believe that God has helped me. I
don't think that I ever did a wrong
in my life."

Green Is Partly Paralyzed.

Green, although he weighs 165
pounds, is partly paralyzed in his
left arm. The physicians believe
that this probably saved Frank's life
as Green was unable to seize his
victim while he used the knife. Warden
Smith said today that Green had
spent much time recently reading
the Bible. Other prison attaches said
that Green recently had shown a
tendency to discuss religion.

Prison Commission to Investigate.

Atlanta, Ga., July 19.—The peni-
tentiary committee of the Georgia
house of representatives late today
voted to table three resolutions
which would have provided for a
legislative investigation of the attack
made on Leo M. Frank at the state
prison farm at Milledgeville. Mem-
bers of the committee said they be-
lieved that Wm. Green, the convict
who attacked Frank, alone was in-
volved and that there was negli-
gence on the part of the prison of-
ficials.

The state prison commission, how-
ever, will visit the prison farm Sat-
urday to investigate the attack on
Frank, according to an announcement
tonight by R. E. Davidson, chairman
of the board. He said the inquiry
would try to establish if others than
Green were involved, how Green got
the knife he used and if he had per-
mission from a guard to leave his
bed at the time the attack was
made.

MYSTERIOUS FIRE BREAKS OUT
ON BOARD BATTLESHIP OKLAHOMACompartment is Flooded Twice Be-
fore Fire is Extinguished—Extent
of Damage not Determined.

Philadelphia, July 19.—Fire of a
mysterious origin was discovered to-
night on board the United States
Battleship Oklahoma at the yard of
the New York Shipbuilding com-
pany in Camden. Smoke was seen
issuing from the compartment un-
der turret No. 1, shortly after the
workmen had left the yard for the
day. The compartment was flooded
and it was believed the fire had been
put out. At nine o'clock, however,
more smoke was observed and the
compartment was again flooded, the
fire being finally extinguished an
hour later.

S. M. Knox, president of the ship
building company, said that a rigid
inquiry would be instituted in an
effort to learn the cause of the fire.
The extent of the damage could not
be determined he added, until the
water is pumped out of the com-
partment, but he thought it would
be slight and would not delay the
proposed trial trip of the vessel.

Shortly before midnight smoke
was observed coming from a com-
partment beneath another turret at
the opposite end of the vessel and
firemen of four Camden companies
and the Philadelphia harbor police
were recalled to the yard. As in
the case of the fires in the forward
turret there were dense clouds of
black smoke but no flames visible.
Although apparently under control
an hour later the firemen continued
to flood the smoke filled compart-
ments.

THAW ARRIVES IN PITTSBURGH.

Pittsburgh, Pa., July 19.—Harry
K. Thaw, slayer of Stanford White,
arrived in Pittsburgh tonight from
Philadelphia and went at once to
the home of his mother, Mrs. Mary
Copley Thaw. Several thousand per-
sons were at the East Liberty sta-
tion when he alighted from a Penn-
sylvania train.

SIX DIE IN FIRE.

Chelsea, Mass., July 20.—Six per-
sons were burned to death or suffo-
cated in a fire which destroyed a
three story brick tenement house on
Beacon street early today. The
victims were a man, four women
and a 12 year old girl.

GRADUAL EVACUATION
OF WARSAW IS ORDEREDGERMAN COLUMNS OCCUPY TUKUM
AND DOBYLENAdvance Southward Against Hof-
zumberge and Benen—London
Papers Seem to Think Russians
Will Be Compelled to Give Up
Polish Capital.London, July 20.—The Morning
Post's Budapest correspondent re-
ports that the gradual evacuation
of Warsaw has been ordered by
the Russians.

Take Tukum and Dobylen.

Petrograd, July 19, via London,
July 20.—German columns have oc-
cupied Tukum, 38 miles west of
Riga, and Dobylen, 18 miles west of
Mitau, according to an official
statement issued at the headquar-
ters of the Russian general staff to-
night. After capturing these points
they advanced southward against
Hofzumberge and Benen.

England Realizes Difficulty.

London, July 19.—Can Warsaw
be held? With the German Field
Marshals Von Hindenburg on the
north and Von Mackensen on the
south, a great arc around the city
is realized in England that Grand
Duke Nicholas, commander-in-chief
of the Russian armies, has the most
difficult task imposed on him since
the outbreak of the European war
and the military writers of some of
the London papers seem to think
that his task is well nigh impossi-
ble.

Point Out Russ Difficulties.

There was sustained confidence
that German's previous violent at-
tacks along the Bzura-Rawka front
would never pierce the Russian line,
but the present colossal co-ordin-
ated movement was developed with
such suddenness and carried so far
without meeting serious Russian re-
sistance that more and more the
British press is discounting the fall
of the Polish capital and, while not
giving up all hope of its retention,
is pointing out the enormous diffi-
culty the Russian armies have la-
bored under from the start by the
existence of such a salient.

Having been unable to straighten
out their line by an advance
through East Prussia in the north
and Galicia in the south, the Rus-
sians have perpetually faced the
pincers of the Austro-Germans and
if these can now be sufficiently
tightened, Warsaw must go and
with it the entire line.

Berlin and Vienna Silent.

As was the case on Saturday when
the Austro-Germans recorded the
success of their offensive in the east
no official communication from ei-
ther Berlin or Vienna reached the
London newspapers today. Satur-
day's communication was released
Sunday for publication and up to
nearly midnight tonight no new
communication has come to hand.
In the absence of additional official
information from Petrograd there
is nothing to throw fresh light on
the eastern front, but the Austro-
German advance could hardly so
soon have lost its momentum.

According to the latest accounts
the Austro-German forces, advanc-
ing from Przasnysz, were within
forty miles of Warsaw while to the
south Von Mackensen's center was,
at certain points, within ten miles
of the Lublin-Chelm railroad.

BRYAN DISCUSSED "THE
IDEA OF NEIGHBORLINESS"

San Francisco, July 19.—William
Jennings Bryan today discussed "the
idea of neighborliness" before the
combined sessions of the Asiatic
institute and the American historical
association in convention at the
Panama-Pacific Exposition.

He said the Pacific should be a
connecting link and not a barrier
between the white and the yellow
races.

ROOSEVELT SPEAKS AT
PORTLAND

Portland, Ore., July 19.—"From
time to time I shall have something
to say on matters of vital interest
to the nation as a whole, but it will
not be for speeches or mollycoddles,"
said Theodore Roosevelt here today
when a cheering crowd impelled him
to speak.

Mr. Roosevelt then warned the
public not to believe any reports re-
garding him which they might read
or hear at second or third hand.
Colonel Roosevelt departed for San
Francisco.

"Rumpelstiltskin"

A four-part Mutual Masterpiece
featuring

CLYDE TRACY, supported by ELIZABETH BURBRIDGE and others. A delightful fairy story.

The story deals with a dwarf, a fairy princess and the inevitable dragon. The dwarf Rumpelstiltskin covets the miller's daughter, Polly, who in turn is in love with the prince. The dwarf captures Polly and places her in a cave guarded by a fiery dragon. The fairy princess renders the dragon helpless and the princess rescues Polly. Later she and the prince are transported on a magic carpet to far off land and are married. Finally the dwarf appears and carries away her child. With the aid of the magic carpet they find their child, return and are forgiven by the King.

Hadley Will Seek Senate Seat.

The announcement that Former Governor Hadley of Missouri will be a candidate for the United States senate is of more than state wide interest because of the excellent record that Mr. Hadley made while attorney general of Missouri and later as chief executive of the state. At the national Republican convention in 1912 Governor Hadley was a prominent figure and one of the most popular with the delegates. While he was aligned with the "regular" element of the party he also had favor with the Progressives and there were several efforts made at the convention to have him as the presidential nominee. There were a good many delegates though who while they admired Mr. Hadley and approved his record, did not believe that he had had quite broad enough experience in public life to make him a safe man for the presidency.

The Birthday of Belgium.

The Belgians of the United States and Canada will join tomorrow in the celebration of the 85th anniversary of the independence of their native country. Despite the havoc of war, the Belgian people will hold a national holiday, in recognition of the 85th anniversary of independence. The observance of the day will be general in France and England, in recognition of the bravery and self-sacrifice of the devoted little nation which thwarted the Kaiser's plan to swoop down on Paris and the English channel.

The observance will be principally in the nature of patriotic meetings and religious services in memory of the brave fighters who lost their lives during the past year.

The Belgian people, although now for the most part under German rule, are united for their faithful King Albert, who is still in the trenches with his men. He is the successor in line from King Leopold, who was crowned King of the Belgians just 84 years ago today. It was in 1830 that Belgium achieved its independence, and in that year was recognized as a nation. The Duke de Nemours was chosen King, but his father, the King of France, refused his consent. Leopold, Prince of Coburg, was elected to lead the new country.

Will Teach Fire Danger.

Seventy-five per cent of the fires in Illinois are preventable is the statement made in almost every bulletin from the office of the Illinois fire marshal. This same slogan appears in the announcement made yesterday from the fire marshal's office that the prevention of fires will be made a part of the curriculum of common schools this fall. Through co-operation with Supt. Blair a text book is being prepared for use in the schools, and it is believed that by teaching the school children about fire dangers, that with passing time at least a great saving in fire loss can be effected in this state. It is also intended to teach something about the dangers of lightning and what precautions people may take during a storm for their protection. Other matters will also be touched upon, all of them tending to teach young people how they may prevent the loss of life and property.

This is a campaign of education which seems practical indeed, and judged upon the basis of years will no doubt have a larger effect in attaining the desired ends than will the publication of bulletins from the fire marshal's office. If the school children this year and for a few succeeding years have these dangers pointed out to them in a plain, practical way, it will be but a few years until all citizens have been impressed with these important facts.

Road Dragging Compulsory.

The last legislature acted wisely in at least two of the amendments made to the Tice road law. Section 62 was changed by requiring that \$1 to \$5 for each mile of earth road in a township shall be set aside for dragging purposes, and providing that this fund should be used for that purpose and no other. The law previous to this time made possible road dragging, but it was not mandatory. The dragging of roads in Morgan county has brought such excellent results that in nearly all the districts the commissioners have been willing to expend quite a goodly sum for dragging work. There have been a few officials, however, who thought that the money brought better results by using it practically all for grading. Now that dragging is compulsory every highway in the county will receive some dragging attention, and judging by the work of the past the roads will be vastly benefited.

The general assembly appropriated \$2,750,000 for general road work but Governor Dunne vetoed the \$750,000 and left the \$2,000,000, which is to come from the automobile license fund. This sum while

not as large as the enthusiasts for good roads had hoped, is nevertheless nearly twice as large as that appropriated by the previous general assembly. Allotments were recently made of this fund, but in most counties the work to be paid for from the allotments will not begin until next spring for the reason that most counties will not have funds available from which to appropriate an amount equal to the allotment in accordance with the law governing the matter.

Another amendment to the law makes it possible for counties to issue bonds for hard road improvement and a number of counties are already agitating the question. This plan is being pushed by those who claim that the present system of acquiring hard roads is too slow and that it will be twenty or twenty-five years with this plan before any great amount of territory is provided with hard roads. The plan of issuing bonds means that the yearly allotments can be used for paying off the bonds and that the present generation will have the extra use of the hard roads.

WOMEN IN THE NEWS.

Boston—One of the most important public offices held by an Eastern woman is that of state actuary of insurance, which is held by Mrs. Emma Cushman. For forty years she has been supervising insurance in this state, and during the past 20 years she has been head of this important office. She presides at a desk which is always weighted down with a mass of detail that would challenge the resources of most any business man. Every Massachusetts insurance company must submit to an examination of its valuations and records once in every three years, and this inspection in itself means a great deal of work.

New York—A pretty romance is that of Miss Lanier Lawrence, who is to wed William Averell Harriman, the railroad magnate. They had been much together since the young lady was thrown from her horse and injured last April, and it was no surprise when the engagement was announced two weeks ago. Young Harriman was sent out into the west by his father some few years ago to learn practical railroad work. He labored with a section gang and roughed it. His bride-to-be is prominent and popular in society, and is devoted to out-door sports. She is one of the best horsewomen in this city. When she was injured last spring, young Harriman took her to the hospital, and he has been constantly interested in her recovery.

Paris—With the French lawyers for the most part fighting with the army, the women lawyers of France have found unlimited work out for them, and are reaping a harvest. It is a common thing for women "advocates" to appear at courts martial to plead for soldiers who were on trial for small offenses, and their pleas are proving effective. The routine business of the courts is now falling largely to women, whereas in the past they secured only cases involving only women clients.

Washington—A unique educational movement suggested by Mrs. Harvey E. Jester, formerly of Chicago, and about to be carried into effect through her personal efforts, has and the approval of several South American republics. She is on her way to Central and South America to ask the wealthy Pan-Americans to send their sons and daughters to the United States to be educated, instead of to Europe. It is her idea that through education a bond of fellowship can be established that will bind firmly the estranged nations of the American continents. Various governments have informed Mrs. Jester that they will place every facility at her disposal and will aid the movement. She will go first to Panama and thence down the western coast, returning by way of the east coast, and visiting the capitals and bigger cities en route.

San Francisco—A hospital romance in France has resulted in the marriage of Mrs. Clara Sutro Englin, daughter of the late Adolph Sutro, former mayor of San Francisco, and once the wife of William J. English, a prominent lawyer of Chicago, to a member of the French nobility, Count Albert de Choiseul-Praslin. The bride was planning to sail on the Lusitania on its fatal trip, but cancelled her passage to join a Red Cross band en route to France. Fate assigned her to a hospital where the Count was taken when wounded on the battlefield. It was the American divorcee who nursed him during the days when his life was in the balance. The ceremony followed his complete recovery, and was celebrated quietly in Paris.

Milwaukee, Wis.—The selection of Mrs. Meta L. Berger to head the Milwaukee school board at its recent meeting, again brings to notice the career of this wonderful woman. Since girlhood she has fought for the better education of children. She has been an active member of school board for six years. She has worked continuously to extend the night school system and to give educational opportunities to unfortunate children, such as orphans and paupers. She married Victor Berger in 1897 and their three children have been educated in the Milwaukee public schools.

ON CAMPING TRIP.

The following young ladies expected to go to Quiver Beach today for a ten days camping trip. Miss Alma Newland will act as chaperone; Misses Helen and Louise Gierl, Louise Leonard, Mary Cosgriff, Helen and Catherine Sweeney, Theresa Boylan and Lucille Harmon.

SOCIAL EVENTS

Celebrated 40th Wedding Anniversary.

Mr. and Mrs. John Spainhower celebrated their 40th wedding anniversary yesterday at their home near Alexander. At the noon hour an elaborate dinner was served to about thirty guests. The evening was spent in a social way and all departed wishing Mr. and Mrs. Spainhower many more happy anniversaries.

Among those present were: Mrs. Spainhower's mother, Mrs. Sarah Connelley, who is 97 years old; Mr. and Mrs. William Cox and family, Mr. and Mrs. E. D. Sample and family, and Mr. and Mrs. W. T. Connelly and two nieces Annabelle and Leon Chatman from the Alexander neighborhood; Mr. and Mrs. Milton Spainhower and son Russell from Waverly, and Mrs. Samuel Chatman of Des Moines, Iowa.

The West Side Thursday club will hold a special meeting Wednesday night evening at 7:30 with Miss Della Osborne at 436 South East street.

Mrs. Leach Entertains Practical Bible Class.

The Practical Bible class of the Presbyterian church of Woodson was entertained recently by Mrs. J. B. Leach. At noon a splendid tried chicken dinner was served with all the good things that go with it.

After the regular business session, the following short program was given:

Reading, "A Chinese Wedding"—Lula Casteen.

Vocal solo—Mrs. J. W. Hoagland.

Reading, "Guarding the Tongue"—Mrs. George Cunningham.

At the close of the program ice cream and cake was served. Mrs. Leach was voted many thanks for her hospitality.

The following were among those present, Mrs. George Cunningham and daughter, Margaret, Mrs. J. W. Hoagland, Mrs. William Nicol and son George, Mrs. J. H. Devore, Mrs. J. S. Baxter, Mrs. Joan Harding, Mrs. Hugh Vorhees, Mrs. J. Steinmetz, Mrs. J. B. Leach, Mrs. Lula Casteen. Among the visitors were Mrs. Claud Winters, Mrs. Otto Grimmett, Mrs. George Barnhart and little daughter and Mrs. William Ricks of Jacksonville.

J. W. WOODS CAR REPORTED IN ACCIDENT.

It was reported here Monday by an Alton railway conductor that J. W. Woods and wife and daughter, who started in an automobile for Chicago Saturday had met with an accident near Joliet. According to the report of the conductor Mr. Woods' car skidded and went into a ditch and one of the ladies was hurt. The accident is said to have occurred about twelve miles this side of Joliet. Inquiry was made at Mr. Woods' livery barn Monday afternoon but the men in charge only knew what had been told by the conductor and no word had been received from Mr. Woods. Effort was made by the Journal to get some facts from Joliet but a message to that city brought back word that nothing was known of the accident. It is probable that nothing serious happened else some word would have been received by Mr. Woods' friends here.

TO DELIVER LECTURES.

The Rev. Arthur F. Ewert, who is pastor of the Presbyterian church at White Hall has been given a month's vacation from July 1 to 25th, at which time he will be at the Mattoon chautauqua as platform manager. From there he will go to the Postville, Ohio, chautauqua, July 26 to Aug. 2 and will act in the same capacity at Urbana from Aug. 8 to 16. Mr. Ewert will deliver three lectures at each place. Mrs. Ewert and son Richard are visiting with her parents, Mr. and Mrs. W. R. Huckleby this city but they will join Mr. Ewert when he is at Urbana.

SHERIFF TO WAGE WAR AGAINST IMMORAL PLACES.

Springfield Journal: As a climax to his far-reaching campaign against vice, Sheriff John A. Wheeler announced yesterday that he will clean out the "red light" district and all hotels and rooming houses used for immoral purposes. He further announced that in order to give the proprietors of these places an opportunity to vacate he will extend them ninety days grace.

"I will act under the new law passed by the last legislature which gives any citizen of this state almost unlimited power to close these places," said Sheriff Wheeler yesterday.

EXCURSION TO BEARDSTOWN

The White Hall band of which Wilbur C. Hitt of this city is leader is planning for an excursion on the Illinois river from Pearl to Beardstown, August 5. A number of Jacksonville people are contemplating the trip.

MAKING TRIP IN CAR.

Mr. and Mrs. J. H. Gill and son of Columbus, Ohio, have been visiting at the home of Mrs. William Willard west of the city. They left yesterday in their E. M. F. car for Minnesota. They report the roads bad in some places but a very pleasant visit.

WILL SOON COMPLETE PAVEMENTS IN OTTAWA.

John Cherry, who is putting down 22 miles of pavements in Ottawa has about finished the contract. All the streets and side streets were paved at one time making the task a long one with a large amount of money expended.

Armand's Perfect Complexion Powder

THE SUPREME ACHIEVEMENT OF THE PERFUMER'S ART.

This powder is so exceedingly smooth and velvety and its adherent properties so persistent, that we believe it to be the only truly invisible powder and the powder that really stays on. Armand's Powder is luxurious, its texture soft and creamy, its perfume delicate, alluring, exquisite.

Armand's Powder is not expensive, and compares with the highest grade imported makes. Persons of refinement have pronounced this the most delectable of all complexion powders. At our store for 50c the Box.

Red Cross Complexion Powder.

the pure rice powder, is our largest selling face powder. At the price we ask for this delicate powder we are not surprised at the large number sold.

MRS. ALICE TAYLOR PASSES AWAY EARLY THIS MORNING

Mrs. Alice Taylor died at 2:10 o'clock this (Tuesday) morning at the home of her daughter, Mrs. D. L. McCarty, 914 North Main street, after an illness of eight weeks. A suitable obituary will appear later. Arrangements for the funeral have not been made.

AUSTRIAN SUBMARINE SINK ITALIAN CRUISER AT CATTARO

ROME, July 19.—(Vlt.) London, July 20.—An Italian Cruiser Squadron comprising the Varese, Francesco Ferruccio, Giuseppe Garibaldi and the Vettor Pisani, proceeded at an early hour Sunday to Cattaro, an Austrian seaport in Dalmatia, and opened fire. The official statement of the incident follows: "At dawn July 18th, a division of our old armored cruisers approached Cattaro and bombarded and seriously damaged the railway nearby. While our vessels were retiring, they were attacked by enemy submarines and the Cruiser Giuseppe Garibaldi, after having availed the first attack was struck by a torpedo and sunk. The crew maintained calm and nearly all were saved."

DANIEL BELASCO IS KILLED.

Chicago, July 19.—Daniel Belasco, an attorney and cousin of David Belasco, the theatrical manager and author, was killed in an automobile accident near Libertyville, today. Two women, Mrs. Fred Drayheim and her sister-in-law, Miss Anna Drayheim, and Simon Westfield, proprietor of a market, were injured, one of the women perhaps fatally.

THINKS GENERAL STRIKE UNNECESSARY.

Boston, July 19.—The demand for machinists is so much greater than the supply that general strike in New England probably will not be necessary, in the opinion of P. J. Conlon, international vice-president of the Machinists' Union. Mr. Conlon and three other international officers held a secret conference with the executive board and organizing committee of the local union tonight. The officers declined to make public what action had been taken.

THREE INQUISITIVE SCOTS.

And How They Happened to Originate the Jute Industry. James Logie, who is supposed to know more about jute than any one else in America, tells in a very interesting way how jute came to be known to Europe and the west: "In 1840, on a Saturday afternoon, three Dundee flax spinners were walking to their beautiful residences in Broughty Ferry, about four miles east of Dundee, on the banks of the Tay, and as usual strolled along the docks. At that time there were several Clipper line sailing vessels trading with Dundee in Indian products, principally grain, linseed, etc., and on this particular Saturday one of these vessels was discharging her miscellaneous cargo, and these canny Scots observed a fibre in some quantity on the dock and made inquiry as to what it was. "They were told it was some Indian product that had been obtained in Bengal, and was suitable for the dunnage of ships. They examined the fibre a little more carefully and all thought it would be possible to split the fibre on their flax machinery. The result was that Monday morning they made a bee line for the agents of the ship and asked what they were going to do with this waste material. "They got the reply, 'We propose dumping it into the river,' and when they expressed a wish to experiment with it they were told they could cart it away from the dock and were welcome to it if they paid the cartage. Thus the jute industry started—for the fiber turned out to be nothing less than what we know commercially today as 'jute.'—Exchange.

SUBMARINE TACTICS.

Locating the Enemy, Getting the Range and Making an Attack.

How does a submarine attack? How does it locate the vessel it wishes to torpedo and how does it proceed about the business of sending such vessel to the bottom? Here is the way the commander of Uncle Sam's submarine flotilla tells it:

"A submarine will come to the surface at 5,000 or 6,000 yards from the vessel it is attacking—far enough so the enemy is not supposed to see the periscope. It stays up long enough to get the enemy's course, then goes down and sets its course to intercept the enemy's ship.

"The vessel must be coming more or less toward the submarine, otherwise the submarine, with its low submerged speed, cannot catch it.

"The officers of the submarine will know the revolutions of the approaching ship and will use the gyrocompass with which to work out its exact position. They will know just when to come up to be within range.

"When the submarine comes up it will show the periscope as little as possible, take quick aim and fire its first torpedo. If it wants to remain there out of curiosity to see the effect it can. But if it does not it goes right down again.

"It stays a short time under water, turns the cap bringing new torpedoes up into the tubes and then comes up for a second shot if necessary."—Pittsburgh Press.

Read the Journal, 10c a week.

JITNEY OPERATORS MAY CARRY GRIEVANCES TO CIRCUIT COURT

The action brought by the Tri-City Railway company of Rock Island, Moline and Davenport, against 150 jitney car drivers operating in the cities mentioned, is scheduled for a hearing before the Public Utilities commission today. If the finding of the commission is not satisfactory to the jitney operators it is probable that the case will be carried into the Sangamon county circuit court. In Rock Island the city council passed an ordinance regulating the jitneys, compelling them to secure licenses and then to furnish regular service, on specified streets, so that they can be classed as public carriers.

SEVERE WINDSTORM WRECKS CHAUTAUQUA TENT; TWO ARE KILLED

YORK, Pa., July 19.—A severe wind storm wrecked a chautauqua tent at Dallastown, near here today, killing two persons and injuring fifteen others. More than 700 were under the canvass and the entertainers were in the midst of their program when the storm broke. The gale, which came up very suddenly, whipped the tent from its fastenings and carried it forty feet where it was deposited a mass of wreckage.

R. Guy Hess was crushed under the fallen center pole and Dr. E. S. Mann was pinned down in a tangle of wires. Both died later. Most of those hurt, including men, women and children were trampled in the panic that ensued. All the injured are expected to recover.

J. H. JACKSON BECOMES EXPRESS ROUTE AGENT.

Wins Deserved Promotion for Faithful Service With the Wells-Fargo Company.

J. H. Jackson, for the past several years agent for the Wells-Fargo Express company, has been promoted to route agent for the company with jurisdiction over this district. Mr. Jackson succeeds K. D. Gross who has held the position for thirty years. Mr. Jackson's place as agent will be taken by Fred Eyre, formerly a clerk in the local office but recently agent for the company at Havana. The promotion comes to Mr. Jackson through the desire of Mr. Gross to quit the road.

The new position is one which not only carries promotion but also a substantial increase in salary and possibilities for future preferment. Mr. Jackson has proved a most efficient agent during his connection with the local office and his work has largely increased the receipts of the office. Mr. Jackson was in Edwardsville Monday checking out the retiring agent and checking in Mr. Gross. He will check Mr. Eyre out at Havana today and Wednesday the change will be made in this city. Mr. Jackson's devotion to his work here has been noteworthy and he was to be found at the office each day many hours longer than it is customary for an agent to be on duty. He certainly deserves his promotion.

VAUDEVILLE AT THE GRAND.

Manager Johnson has for his vaudeville attraction the first three days of this week Lovine and Inman in "Sally's Visit". This pair have a splendid sketch of rural life and advertise it as something different. It is different from the usual stunt and Lovine and Inman know how to put it on. They were greeted with large audiences Monday afternoon and evening and if applause can be taken as an indication they made a pronounced hit.

MRS. OGLESBY SERIOUSLY ILL.

Chicago, July 19.—Mrs. Richard Oglesby, widow of the former governor and mother of former Lieutenant Governor John Oglesby, is seriously ill at Charleston, Ill., according to a report which reached here tonight. Mrs. Oglesby was returning by automobile from Louisville, Ky., to her home at Elkhart with her son Jasper when she became suddenly ill and was taken to a hotel at Charleston.

RIVERS ARE FALLING

Kansas City, Mo., July 19.—Contrary to expectations, both the Kansas and Missouri rivers were falling at noon today and this fact gave renewed hope that the heavy rains of last night would not cause the two rivers to exceed the high marks reached by the Kansas last night and by the Missouri early today. At noon the Kansas river stood at 24.4 feet and the Missouri at 27.7 feet.

MISS ADDAMS WILL CONFER WITH PREIDENT

Washington, July 19.—President Wilson will discuss with Miss Jane Addams of Chicago Wednesday the outlook for peace in Europe. Miss Addams recently returned home after visiting the principal officials of many of the belligerent and neutral nations abroad as the representative of a Women's Peace Movement.

CARRANZA TROOPS TAKE NACO.

Naco, Sonora, Mex., July 19.—The Villa loss in the skirmish today in the streets preceding the occupation of the town by Carranza followers was one killed and seven wounded. Carranza casualties were one wounded. Eleven of the Villa civil guards who fled across the international boundary are held prisoners by the United States cavalry. Several Americans taken prisoner by Colonel Cardenas were surrendered on demand of Major Elwood W. Evans, commanding the tenth United States cavalry.

MORTUARY

Gleeson.

Benjamin Gleeson, a well known physician of Danville, died Sunday afternoon at his home. For a number of years he was a resident of Springfield. He leaves his wife and four children.

Roegge.

Mrs. Elizabeth Roegge, whose death occurred at a local hospital, and of which brief mention was made in Sunday morning's Journal was born near Beardstown, a daughter of Mr. and Mrs. Henry Witte. She was 43 years of age and in 1891 she married William Roegge. Besides her mother she leaves her husband, six children, Clarence, Annie, Lina, Edward, Minnie and Elmer, also the following sisters and brother, Mrs. Minnie Perbix, Mrs. Bertha Krohe, Mrs. Maria Krohe and William Witte all of Cass county. Mr. Roegge is a county commissioner of Cass county. Mrs. Roegge was a woman highly regarded by all who knew her for her beautiful life and character.

The funeral will be held from the Lutheran church in Arenzville, Wednesday afternoon at 2 o'clock with burial in the Lutheran cemetery.

IN JUSTICE COURT.

A jury composed of William Robinson, Arch Norris, H. C. Groce, C. W. Simms, N. L. Purvines and M. S. Harmon heard the case of Walter E. Bates vs. Glenn Goodall in Squire Dyer's court Monday afternoon. It appears that on the night of May 23 Bates was going to his home in a rig when he was run into by Mr. Goodall. The attorneys in the case were Fred L. Gregory for the defense and John M. Butler for the plaintiff. The jury returned a verdict in favor of the plaintiff and assessed his damages at \$30 and the cost in the case.

BIRTH RECORD.

Born to Mr. and Mrs. C. L. Smith of East Morgan street, Sunday afternoon, a son. The mother, formerly Miss Irma Angelo of this city, is suffering from typhoid fever. The child is doing nicely.

I Treat Chronic Diseases

With My New Neuropathic System of Treatment.

CONSULTATION FREE.

I am having great success with my Neuropathic System of treatment in the cure of Chronic Rheumatism, Uric Acid conditions, Kidney and Bladder troubles, Palpitation, Shortness of Breath, Stomach and Liver troubles, Constipation, Blood and Nervous troubles, and every curable Chronic Disease or weakness.

This system of treatment has cured hundreds of cases after other treatment had failed. If you are suffering with some chronic trouble do not neglect this opportunity to get my expert opinion of your case. Do not delay and allow your trouble to become incurable. Come and let me explain this great system of treatment to you. Consultation and examination are free. I will be at the Dunlap Hotel from 9 a. m. Tuesday, July 20, until 4 p. m. Wednesday, July 21.

DR. E. O. GABLE.

CANTON BUSINESS MAN SUFFERED 20 YEARS

M. Gibson Swiftly Restored and Feels Like Young Man Again.

M. Gibson, a business man of Canton, Ill., for 20 years was a sufferer from stomach disorders. He took many treatments and spent large sums seeking relief.

One day he tried a dose of Mayr's Wonderful Remedy. The results he sought came at once. He found quick relief. Telling of his experience, he wrote:

"Your medicine is the best on earth. I have spent hundreds of dollars on medicine, doctor bills and hospital expenses. I have been sick for 20 years. Since I took your medicine I feel like a young man again."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

CONSTIPATION

The Most Prevalent of Ailments. The Cause of Almost All Illness

If you are constipated, your blood is full of impurities, your kidneys are overworked, your skin rough and sallow, your mind inactive, your liver full of old bile, your muscles weak and flabby.

MUNYON'S PAW-PAW PILLS arouse the most sluggish liver. If you feel tired after eating, if you have belching of wind, heartburn, water brash, sour stomach, if you are nervous, if you are unable to sleep, you need MUNYON'S PAW-PAW PILLS. Every bottle gives satisfaction or your money refunded.

COUNCIL CONFERRED ON ATTORNEY'S BILL

QUESTION OF WHO EMPLOYED MR. STEVENS IS DISCUSSED.

Dr. Baker and Dr. Bowe Gave Their Version of Original Arrangement With Springfield Attorney—School Tax Levy Ordinance Passed—Will Issue Orders to Clean Up Weedy Lots.

The meeting of the city council Monday morning turned into a discussion of Attorney A. D. Stevens' connection with the Jacksonville rate case before the utilities commission. Mayor Rodgers, members of the council Dr. Baker and Dr. Bowe and Mr. Misner took part in the discussion, which was of a somewhat animated character. The net result of this discussion was that a motion was made by Mr. Vasconcellos, with a second by Mr. Widmayer, that Mayor Rodgers call a special meeting of the council and request the presence of all members of the former council and former city attorney to see if the exact facts in the case cannot be reached.

It seemed to be the general feeling among council members that Mr. Stevens must certainly have been employed by someone and that eventually he must be paid for his service. Following the discussion of this question Mr. Cox reported that the LaCrosse Lumber company asked for a reasonable length of time to arrange for the removal of certain material that they have piled adjacent to their building. L. S. James was present and declared that the company had already had several months to do this work and that unless relief was speedily given they would bring suit. Mayor Rodgers said that there was no use getting vexed about the matter and that the company was entitled to some reasonable time for the removal of the material objected to. The ordinance providing for the school tax levy was given a second reading and passed.

Must Clean Away Weeds.

City Attorney Reeve called attention to the section in the city ordinances referring to noxious weeds, about which he had been asked and it was understood that in accordance with the terms of this ordinance that Commissioner Cox will cause notices to be sent to property owners where weeds are causing annoyance and then if no heed is given, that the work of cutting the weeds will be done and the cost charged against the property. Mr. Reeve also called attention to the hearing on the South Main street paving which is to be held next Saturday and said that it would be well for the members of the council to be thinking of any changes that they wished to be made in order that they can be incorporated at this hearing. The time is so short for the appropriation made by the state is to be utilized that nothing which will in any way delay the matter should be brought up. Mr. Reeve said that it would require two days after the hearing for him to prepare the ordinance and that then after it had been given a reading it must lie over under the rules for another week.

The discussion about Mr. Stevens' \$500 bill against the city for services rendered in the rate case came up when Mayor Rodgers stated that he had written to Mr. Stevens asking him who employed him as there had been some local difference of opinion about the facts in the case. He then had Mr. Pyatt read the reply from Mr. Stevens in which the writer said that he had been verbally employed at a meeting in Springfield with City Attorney Thompson and four of the former city council. He said that it was the understanding that the city was behind the rate case, but in order to avoid the city appearing as a complainant and thus jeopardizing its rights in some possible future litigation, that the city might have with reference to the fact that it had been agreed that the city should not appear as petitioner and that the names of citizens who had consented should be used instead. The writer said that City Attorney Thompson had made the first suggestion to him about appearing in the case.

Mayor Rodgers said he had asked Mr. Thompson about any such arrangement and that Mr. Thompson declared that he had not made any arrangement with Mr. Stevens.

Dr. Bowe's Statement.

Dr. Bowe then addressed the council and said that there was not the least doubt at all about Mr. Stevens having been employed—that various members of the former city council and former city attorney were present at several conferences held with Mr. Stevens in Springfield. He said further that there was a clear understanding that while the proceedings were brought in the name of citizens, that this was done to protect the city and with the further understanding that in addition to the fee paid by the city that he and Dr. Baker would get out and raise a fund among citizens to complete the total fee to be paid to Mr. Stevens. The doctor thought it very unfair indeed that there should now be any discussion about the payment of the bill, which he said had been honestly contracted, and that it was humiliating to the citizens who had signed the petition and had not only signed it but had spent considerable time and money in the whole proposition, which was simply one for the general good of Jacksonville. He said that no written contract could be made and that this was

the more reason why the bill should be paid.

W. B. Misner suggested that there might be some question of the city's legal right to pay any such bill since the city's name did not appear anywhere in the records.

Dr. Baker recalls Conference in Springfield.

Dr. Baker emphasized the point that there was a special reason for omitting a formal contract, which might be embarrassing to the city later on and for that reason that it would be much more reprehensible for the city to seek to avoid responsibility for the attorney's fee and take advantage of the fact that no contract had been made, when the very purpose of omitting the contract was to help the city. The doctor said further that even if there had been no formal contract, that the city officials accepted Mr. Stevens' services and were familiar with the work that he was doing. He said that at one of the early sessions of the hearing that he went with two members of the council and with the city attorney to the office of Mr. Stevens, where the statement was made that Mr. Stevens was going to appear on behalf of the city, and then there in the presence of the members of the council and the city attorney, Mr. Stevens made various changes in the document which was to be filed before the commission.

Special Meeting to Be Held.

Dr. Bowe again spoke and talked of the service which Mr. Stevens had rendered to every citizen, and this caused Mr. Misner to ask if there had been any service rendered to the people. Further Mr. Misner said that if the petitioners had not had an attorney to present their case before the commission that in all probability the utility company would not have had an attorney, and that up to the time of Mr. Stevens' appearing in the case that he (Mr. Misner) had handled all of the rate case matters so far as the light company was concerned.

Mayor Rodgers asked if in the beginning there had not been some conference about the whole matter before Judge Thompson in which Judge Thompson suggested that neither side was in position to proceed since there had been no presentation of facts by attorneys. Mr. Misner did not remember any such instance.

Mr. Martin said that it seemed useless to have a prolonged discussion about the matter—that it seemed as if Mr. Stevens had been working for the city and would probably have to be paid. Mr. Cox said that it seemed on the face of the matter that Mr. Stevens had been employed by somebody, but that members of the former council denied any such transaction. He thought Mr. Stevens should be paid but he was not willing to vote for payment until the facts had been clearly set forth. Commissioner Widmayer and he had recently talked with Mr. Knollenberg and he judged from what Mr. Knollenberg said that at least a majority of the council had approved the employment of Mr. Stevens to represent the city in the rate case.

Then the motion for a conference between the present council and the old was made by Mr. Vasconcellos and Mr. Widmayer. Before it was put, Mayor Rodgers asked former Mayor George W. Davis who was present if he knew anything of the old was made by Mr. Vasconcellos. Mr. Davis said he did not know anything about it, and that he had told City Attorney Thompson after the first hearing when he saw that Mr. Stevens appeared in the case, that it must be clearly understood that Mr. Stevens was not to be paid by the city. After giving attention to the James complaint against the LaCrosse Lumber Co. and the other matters referred to above, the council adjourned.

WAS PLAYING WILD WEST.

J. H. McGowan, a farmer in the vicinity of Arcadia, started out to play wild west at Litterberry Saturday evening. The ladies of the M. E. Church in that village were holding an ice cream social. McGowan went to the social and began to flourish a gun and in other ways to make himself a nuisance. The sheriff's office was notified and the Deputies B. C. Andrews and Harry Norris went to Arcadia and brought McGowan to town and locked him in jail. He appeared before Justice Dyer Monday and was fined \$25 and costs totalling the sum of \$34.99 for carrying concealed weapons. The charge of disturbing the peace was held in abeyance depending on his future behavior. McGowan is from Kentucky and he thought that such things were permissible.

GOES TO SAN FRANCISCO.

O. E. Tandy has received a letter from his son, George Tandy, who is attending summer school at the University of South Carolina that he will start about the first of August for San Francisco. Mr. Tandy is a member of Sigma Chi society of the university and will go to the coast to represent the society at the convention which will be held August 4, 5 and 6. Mr. Tandy is highly honored with the selection as it is difficult for a student to become a member of one of the societies until after he has been in school for a year or more. He will have his expenses paid for the trip and he expects to visit his parents here on his return from the west.

HAS HOME GROWN FIGS.

D. J. McCarty of West Morton avenue brought to the Journal office some figs which were grown on a tree at his home. The figs are of good size and the tree had a large number on it.

JAILED FOR VAGRANCY.

Myrtle Saltee was before Justice Dyer Monday and was sentenced to jail for ninety days for vagrancy.

Richard Megginson was in the city from Woodson Monday.

GRAND CIRCUIT MEE T OPENS AT CLEVELAND

THREE FAVORITES ARE RETURNED WINNERS.

Russell Boy Produces a Sensation When He Captures the Edwards Stake for 2:10 Pacers—Two Year Old Track Trotting Record is Established.

Cleveland, July 19.—Three favorites were returned winners, one outsider threw a panic into the talent, the fastest opening heat in the history of the Grand Circuit was trotted and a two year old trotting record of 2:13 1-4 was established today in the opening at North Randall of the first clash of the Grand circuit campaign.

The Edwards stake for 2:10 pacers produced the sensation of the day when Russell Boy, a rank outsider, captured the honors in four heats. Incidentally he wiggled the fastest mile ever made in the stake when he went the second heat in 2:03 3-4. He barely escaped the flag in the first heat. Hal Boy, favorite in the race, drew the place position.

The greatest interest of the day outside of the Edwards stake, centered in the action of the two Past-time trotters, Lee Axworthy and Volga, favorites respectively in the 2:08 trot and the 2 year old trotting sweepstakes. Both were straight heat winners.

Summaries.

2:07 class, pacing, purse \$1,200.

Three heats.

Single G. (Gosnell) 1 1

Frank Patch (Cox) 2 4

Rastus (McDonald) 4 2 3

Best time—2:03 3-4.

2:08 class trotting, Purse \$1,500.

Lee Axworthy (Andrews) 1 1

Bright Axworth (Murphy) 2 4

Bonington (Dickerson) 8 2

Best time—2:05 1-4.

The Edwards, 2:10 class pacing.

Purse \$3,000.

Russell Boy (McDaniels

and Geers) 11 1 7 1

Hal S. (Murphy) 1 2 2 3

Queen Abess (White) 4 4 1 2

Best time 2:03 3-4.

Forest City Sweepstakes, two year

old trot. Value, \$1,500.

Volga, (Andrews) 1 1

Native Judge (B. Murray) 2 2

Sis Bingen (McAllister) 3 3

Best time—2:13 1-4.

W. A. McDaniels, one of the drivers

of Russell Boy, winner of the Edwards stake, is a resident of Jacksonville and the trainer of the pacer. The horse is owned by a Mr. Frank at Quincy and has been entered in races at the Jacksonville Driving Club park in South Jacksonville.

CUBS DEFEAT ROOTERS.

The Cubs defeated the Rooters in an exciting game Monday, the final score being 7 to 6. This made the seventh straight victory for the Cubs.

Score: R. H. E.

Cubs 002 020 020—6

Rooters 020 002 021—7

Batteries—Rooters: Williamson,

R. Zell and Reed. Cubs: J. Zell

and Johnson and Stewart.

Two base hits, Stewart, Ransdell.

Three base hit, J. Zell. Double

plays, J. Zell to Johnson to Ransdell.

Base on balls—off J. Zell, 3;

off R. Zell, 5; off Williamson, 1.

Restoring Old Batteries.

Liquid cells are restored by replacing the zinc or other metal parts used up in making the electricity. It is sometimes necessary to replace the liquid. Dry cells may be restored to a certain extent by removing the pasteboard cover, punching several holes in the zinc can with a nail and setting the cell in a jar of strong sal ammoniac solution, using it as a wet battery. There is no practical method of restoring dry cells to their original strength, as a considerable part of the zinc has been eaten up by the chemical action that makes, or rather sets free, the electricity.

Smoke Prevention.

According to a Canadian patent for treating fuel to prevent smoke, the coal or like fuel is sprayed before or during combustion with a solution of sodium chlorate or perchlorate and sodium permanganate. Preferably the perchlorate and permanganate are used in equal parts by weight and dissolved in the same weight of water. A smaller proportion of chlorate is used, and the mixtures may be greatly diluted. The heat of the furnace liberates the oxygen, which consumes and prevents the emission of smoke.

Visibility of Red Light.

Red lights are chosen for danger signals on railways for the reason that they are visible at a greater distance than those of any other color. Red light has a visible range of nearly three and a half miles in the standard signal light. The next in strength is green light, which can be seen under similar conditions for three miles. Blue, purple and yellow can be seen only about a mile and are likely to be confused with the other colors.

Restoring Tan Color to Leather.

A leather company discovered that oil of citronella would restore various shades of tan and brown leathers to their original colors. It is only necessary to rub the leather over with the oil and later polish with a good leather dressing.

Dr. and Mrs. C. E. Scott of Westminster street spent Sunday at the guests at the home of Mr. and Mrs. Edward Hall in Peoria.

HELPFUL HINTS FOR HOUSEWIVES

Teakettle That Always Retains Some Water.

To protect kettles from the injurious effects of being inadvertently left on the stove or fire without containing a sufficient quantity of water to prevent burning or opening of seams is the object of an invention herewith illustrated. The illustration shows a side elevation of the kettle broken away to show the confined water after the kettle has been emptied of all the contents possible.

In constructing the kettle the spout is extended inwardly, as shown at 6, to provide a water retaining space (7) beneath the extension and surrounding it. It will be noted that the confined water is between the dotted line "a" and the front wall of the kettle and is ample sufficient, when the kettle is placed on its bottom on the stove, to protect the bottom from burning.

It will be obvious that, no matter how far the kettle is tilted forward, the confined water cannot pass out through the spout, as the entrance of the spout extension is placed at a height above the kettle bottom sufficient to prevent it.

Kitchen Kinks.

To keep lettuce fresh place it in a granite pan, sprinkle with a little cold water, then cover with an inverted granite pan, and it will keep fresh for a week.

If a pinch of soda is added to gooseberries or currants while cooking they will require far less sugar for sweetening.

Surgeon's adhesive plaster can be used for fruit jar labels, labeling the back with ink.

When chicken for boiling seems tough add a teaspoonful of soda while boiling.

If the bottom of the oven is sprinkled with salt the bottoms of layer cakes will not brown too much, as often happens.

Laxative For Children.

Place a pound of washed figs and a cupful of pure olive oil in an agate saucepan; simmer gently on the back of the stove until the figs are plump and tender; then remove them to a glass jar. Add to the sirup the juice of a lemon and a tablespoonful of honey, and boil until quite thick. Pour this over the figs and keep tightly covered. When a laxative is needed a single fig will usually prove all that is necessary.

SOX ERRATIC FIELDING GIVES BOSTON VICTORY

RED SOX STRENGTHEN HOLD ON FIRST PLACE.

Three Errors in Sixth Inning With Two Hits, Enable Boston to Score Three Runs—Schalk's Error Followed by Bunched Hits Give the Visitors Two More.

Chicago, July 19th—Boston strengthened its hold on first place today when erratic fielding by Chicago gave the visitors a victory. The locals contributed three errors in the sixth inning which, with two hits, enabled Boston to score three runs. Schalk's error followed by bunched hits gave the visitors two more in the seventh.

PHILLIES TAKE FIRST GAME FROM CHICAGO

RAIN STOPS SECOND IN FIRST HALF OF FOURTH.

Both Teams Make Majority of Hits Count—Phillies Win on Home Run Drives by Cravath and Bancroft and Batting Rallies in Sixth and Eighth Innings.

Philadelphia, July 19—Before the largest crowd that has been inside the park in years, Philadelphia defeated Chicago this afternoon in the first game of a double header with first place going to the winner, while the second was stopped by a thunderstorm at the end of the visitors' half of the fourth inning with Philadelphia ahead 3 to 1. In the first game both teams made the majority of their hits count, home club winning on home run drives by Cravath and Bancroft and batting rallies in the sixth and eighth innings. With Chicago a run behind in the ninth two men out and Sealer on second Mayer was taken out and Alexander was sent in as a rescue twirler for the first time this season. Alexander ended the game by striking out Williams. The postponed game will be played off here in August.

WORLD'S MARKET NEWS

WATER LOGGED CONDITIONS IN HARVEST FIELDS RAISES WHEAT

Market Closes Unsettled at an Advance of 1 1/2 to 2 Cents—Corn Averages Higher.

Chicago, July 19.—Water-logged conditions in the harvest fields brought about higher prices today for wheat. The market closed unsettled, 1 1/2 to 2c above Saturday night's level. Corn finished 18c off to 1 1/2c up and oats at 1/2c decline to 1 1/4c advance.

In provisions the outcome ranged from a loss to gains of 12 1/2 to 15c. It was apparently inevitable that delays to harvesting and moving the new crop would be made worse by the downpours in the wheat district, especially in Nebraska, here much of the yield is still uncut and owing to the soaked state of the soil cannot be approached with machinery. In addition, railroad reports said that aside from the effect of incessant storms, rural owners in Kansas and Oklahoma were holding shipments back for other prices.

Signs that foreigners were on the buying side of wheat futures here tended to keep reactions in value from being of a lasting sort. Announcement was also made that 300,000 bushels at the seaboard had been sold for export and that rumors of other like transactions were current. In this connection a good deal of notice was taken of the fact that the United States visible supply total had fallen off 1,425,000 bushels for the week, as against an increase of 3,347,000 bushels last year and is now only 5,761,000 bushels, the smallest in 25 years, not one-third as much as at the corresponding time a year ago.

Corn averaged higher, influenced chiefly by the strength of wheat. The market was bullishly affected by the opinion of a leading expert that the prospect for a reasonably full crop this season would have to be regarded as doubtful. Oats held within a narrow range. Steadiness resulted largely from wet weather delaying the harvest.

Chicago Livestock Market

Receipts 44,000.
Market weak, 5 to 15c higher.

JENKINSON-BODE COMPANY

DR. CARSON

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville, Illinois, Wednesday, July 21, 1915. One day only. (Returns every 28 days). Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?

Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain in the back, back of limbs? Have you Rheumatism? Have you Piles? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or limbs? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT. Come early as parlors are always crowded.

A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

C. W. CARSON, M. D.,
726 Oakwood Blvd., Chicago, Ill.

Experience makes perfect. Having treated hundreds of old chronic stomach troubles for the last fifteen years, I can relieve a great majority of these cases and restore them to health and strength again, especially in those cases who suffer from the effects of pain in the stomach and bowels, bloating, gas, spitting up of food, sour stomach, headache, dizziness, loss of appetite, drowsiness, and heavy, bad feeling in the head.

PILES—Every case guaranteed cured without detention from business or use of knife.

Private Diseases a Specialty!

NERVOUS DEBILITY—Are you nervous, despondent, weak, tired mornings, no ambition, poor memory, easily fatigued, excitable and irritable, eyes sunken, red and blurred, pimples on the face, dreams restless, haggard looking, weak back, deposit in urine, drains at stool, distrustful, want of confidence, loss of energy and strength.

SUNDAY BALL GAME A MIGHTY FUNNY FARCE

St. Louis Team Proved Too Easy for Locals in an Eleven to Nothing Game.

Where is St. Louis? Why, it's in Missouri and is the home of the Ben Millers. That is nothing to the credit of the town, however, and if St. Louis wants to maintain its fair name it had best ship the Ben Millers to Mexico or Russia. The Eagles got stung properly when they booked the Ben Millers. The old Ben Millers used to boast of one of the best teams in St. Louis. That was long ago. The aggregation Sunday knew about as much about playing the national pastime as an African Zulu does about astronomy. They were so bad they were good, and a moving picture made of them trying to play would net fortunes for all of the members of the team. We say team advisedly. It was a horse, and it was on the locals.

The game was not started until late, and hence only seven and one-half innings were played. That was enough for everybody. For a time it looked like the weather man was going to call off proceedings entirely. Play was commenced at a little after 4 o'clock. After the first few moments the spectators took the joke good naturedly and had lots of fun kidding the visitors.

Despite the farce, there were several things of interest in the affair. White pitched a great game. He allowed one hit, that an infield bunt down the third base line. This probably would have been an out, but Clark and White congregated around the ball and calmly inspected the seams to see if they were broken.

Woodman threw F. Barker out at first after he had hit into right field. McCollister made a great stop of the throw. Mac also gave a demonstration of how to remove a baseball shoe from a player's foot without unlacing it. In sliding to second he came in contact with one of the pedals of Reifeiss and cut his shoe so he could walk out of it. Reifeiss' foot also was cut and he was compelled to retire from the game. Clark and McCollister had all the put outs for the locals, each getting 12, only one man reached third base, and that station was presented to him by Clark, who wanted to see if they could make a run. Another man got as far as second.

The locals who had any chances all played good ball. Clark and Stewart led in the hitting, each getting two bingles.

The locals started the fun in the first inning. Denny was first up and hit for two bases. Stewart flied to Reifeiss. Wheeler was safe on Reifeiss's wild throw and Denny took third. Wheeler stole second and both came home on Clark's double. DeFrates walked. Christopher hit to Thadwick who threw to third base to catch Clark. Clark beat the throw and Sanders pegged wild to second to catch DeFrates and Clark counted. DeFrates taking third. Christopher and DeFrates worked a double steal. Happy scoring. Woodman hit to Sanders, who pegged wild and Christopher scored. Woodman took second on the error. McCollister hit to Thadwick and was out at first. Woodman was doubled at third on the same play, Loran to Sanders. That made five runs on two hits.

After two were down in the second the locals got two more. Stewart doubled to right. Wheeler followed with a single to right and Stewart counted. Wheeler then stole second, third and home before Clark whiffed for the third out.

The Eagles did even better in the third round, when they made three runs without getting a safety. DeFrates hit to Thadwick and went to second on his wild throw and Christopher hit to Thadwick, who fumbled and the runner was safe. DeFrates, who had taken third when Reifeiss let Thadwick's throw to catch him napping at second get away, scored on Thadwick's fumble of Christopher's hit. Woodman was safe when Beran effected on his infield hit and Christopher took third. Woodman stole second. McCollister sacrificed and Christopher counted. In the fourth round the locals made their last run. With Stewart down, Wheeler was safe when Kramer muffed his fly and scored on Clark's long double to left.

Hit by pitcher—By White (Bescher).
Double play—Thadwick to Beran to Sanders.
Stolen bases—Wheeler (4), DeFrates, Christopher, Woodman, Bescher.
Sacrifice hit—McCollister.
Umpire—Schaarb.
Time—1:15.

LAND O'NOD STORIES

By Howard T. Knapp.

"High le, high lo, I'd like to know why in the summer we never have snow," sang Billy Be By Bo Bum, as he ploughed through the deep snowdrifts that hid the floor of the White Forest.

"We do have snow in the summer, lots and lots of it," answered Tinker Teedle Tee, the merry little elf, who just at that minute came flying up and alighted on Billy's shoulder.

"Pretty soon you'll be telling me the moon is made of green cheese," said Billy, who thought Tinker was making fun of him. "I'm going on eight years old and I've never seen so much as a flake of snow in the summer."

"Well, now, Billy Boy, I don't mean that we have blizzards right here in Jacksonville on the Fourth of July, but remember Morgan county is only one little corner of the world and I could take you to dozens and dozens of places where you could go sleigh riding in the middle of August."

"Oh, you mean up at the North Pole," said Billy.

"No, sir, I mean right here in the United States," replied the elf, nodding his head until the weeny copper kettle he wore in place of a hat bounced up and down at a great rate. "You've heard of the Rocky mountains, haven't you?"

"Sure I have," replied Billy.

"Well, sir, if you took a trip out to California you would see oranges and figs and lemons and all kinds of tropical fruits growing at the foot of the mountains fruits that grow only in the warmest countries. Then when you had climbed up the side of the mountain a few thousand feet you would come to big fields of wheat and other grain for the climate would be too cold for tropical fruits. Farther on up would be the timber belt, where the grain would be replaced by big forests, and at last you would come to the snow line, and above that lies the land of perpetual snow, where it is so cold that nothing will grow, not even trees."

"Yes, sir, Billy Boy, it is so cold on the tops of those mountains that the snow never melts from one year's end to the other, and blizzards sweep over the barren wastes almost every day. And at the foot of the mountain, only a few miles away it will be so hot people will be going around in their shirt sleeves, fanning themselves to keep cool."

"But see here, Tinker, when you're on top of a mountain aren't you nearer the sun than when you're in the valleys a couple of miles below?" demanded Billy.

"Sure you are," replied Tinker Teedle Tee.

"Then I should think it would be warmer on top of a mountain than at the foot," said Billy, sure he had the merry little elf up a stump this time.

"Anyone would naturally suppose it would become warmer as you got nearer the sun, but it's just the other way. You see, Billy Boy, the air we breathe only extends a few miles above the surface of the earth, and as you climb the side of a mountain or go up in a balloon the air becomes thinner and thinner, until at last there is not enough to breathe, and if you could keep on going up you would at last come to a point where there wasn't any air at all, only of course you could not go so high, because you couldn't live without plenty of air."

"But I don't see what the air has to do with it being cold on top of a mountain," protested Billy, who was more puzzled than ever.

"It is the air that carries the heat of the sun," replied Tinker, "just as a telephone wire carries the sound of your voice to the person at the other end. The sunbeams heat the air and the air brings the heat to us, but on top of a mountain there isn't much air to be heated, so of course it is cold, even if you are nearer the sun."

"Gee whiz, it makes me shiver just to think of such cold weather," said Billy. "I like the winter and snow and ice all right, but winter all the year round is too much of a good thing. Why, just think, Tinker, you couldn't go fishing or swimming or go barefoot or—anything. No, sir, you don't catch me living on top of a mountain. I like the jolly, warm sunshine too well, and now I am going straight home and build a great roaring fire in the fireplace so I will forget all about that horrid land of perpetual snow. Good night, Tinker Teedle Tee."

"Good night, Billy Be By Bo Bum. I'll be waiting for you at the pasture bars next Saturday afternoon" and the merry little elf spread his wings and flew off through the woods, while Billy scampered home as fast as his chubby little legs would carry him.

HISTORIANS DISCUSS EFFECT OF CANAL

Opening of Waterway it is Realized Brings a New Era.

San Francisco, July 19.—Historians of North and South America and from Spain and the Orient met here today for a comprehensive discussion of the effects of the Panama Canal on present and future history. The opening of the canal is recognized as one of those great events which bring a new era.

Taking part in the discussion are members of the American Historical Association, the American Asiatic Association and the Asiatic Institute. Nations facing on the Pacific ocean will be represented on the program by men competent to deal with past history and the present conditions. The opening session today deals with China advancement in civilization. Tomorrow the Philippines will be considered by Spanish and American historians. On Wednesday eminent scholars from Mexico, Chile and Peru will read papers dealing with the part played by the Spanish-speaking states in the development of the Pacific Ocean.

On Thursday the historians will meet at the University of California and will take up the settlement of California and exploration of the northern Pacific. On Friday a big final meeting will be held at Stanford University, where papers on the relations of the far east, Australasia and Japan with the Pacific ocean will be read.

Other subjects which will be considered during the big historical congress are: the changes wrought by territorial expansion of the United States, Canada's initiation as a military unit of Great Britain, China's political revolution, Japan's alliances with its erstwhile rivals, Russia's development of Siberia, and South America's increased share in a Pan-American policy.

LANGER WINS CHAMPIONSHIP

San Francisco, July 19.—Ludy Langer, of the Los Angeles A. C., won the Amateur Athletic Union open water championship for the quarter mile today, breaking the American record formerly held by Duke Kahanamoku of Honolulu by 53.5 seconds. Langer's time was 5:32 1-5. J. Wheatley and Bud Goodwin, both of the New York A. C., were second and third.

BUILDING NEW FRONT.

The appearance of the old time feed and sale stable on North Main street is being greatly improved, by the erection of a new front. The work is being done at the instance of J. B. Ogle who is the proprietor of the livery barn.

SHIPPED MATERIAL TO CHICAGO

The Crawford Lumber company's business is constantly increasing in volume and they shipped to Chicago in response to an order from that city last week two car loads of mill work.

REV. O. L. PRIDE AT WESTMINSTER.

The Rev. Ora Lee Pride of Richmond Heights Presbyterian church of St. Louis, Mo., preached Sunday morning in Westminster church. Mr. Pride is a pleasant gentleman and made an agreeable impression during his visit.

GOOD FELLOWSHIP CLUB ELECTS OFFICERS

Walter DeShara returned Monday from Peoria, where he attended the annual meeting of the Good Fellowship club of the operators and editors of the Associated Press of Illinois and Iowa. The session was an enjoyable one and well attended.

At the banquet which was held in the gold room of the Jefferson hotel to chief speakers were W. Kee Maxwell, editor and humorist of the Peoria Journal; Milton Garges, division traffic chief of the Associated Press, Chicago; J. Loomis, representative of the Michigan branch, and a number of delegates.

In the election of officers, William L. Baptist, who learned the game in the local office with Joe Pine, was elected president. Mr. Baptist has been located in Bloomington for some time.

The officers elected were as follows:

President—W. L. Baptist of Bloomington.
Vice president—J. C. Godfrey, Davenport, Ia.
Secretary—N. I. Zeff, Peoria.
Treasurer—W. J. Purse, Chicago.
Board of directors—Howard Jones, Chicago; Leon Dille, Peoria; W. A. Glimpse, Bloomington; Phil J. Heneghan, Peoria.

BIRD HAD FLOWN.

Sheriff Graff and Deputy Andrews went to Rohrer Monday afternoon to arrest Leslie Jones, who is wanted in Iowa on the charge of grand larceny. Jones has been working on a farm near Rohrer but when the officers arrived he had gone. From the information at hand, he left last Friday night for parts unknown.

George Huss of Beardstown spent Monday in the city on business.

Make the Circuit Tour

Your Exposition Trip Will Be Incomplete

unless you take advantage of the opportunities to see for very small cost the

Glorious Pacific Northwest

For only \$11.3 more than via direct routes to California you can see this country that even the poets fail to describe adequately.

200 miles along the noble Columbia River by daylight. Spokane, Seattle, Tacoma and Portland, with all a rugged grandeur enroute, with choice of rail or Portland & San Francisco Steamship Company's steamer, Portland to San Francisco, berth and meals on ship included. This trip includes stopover at Denver, Colorado Springs, Ogden (Ogden Canyon) and Salt Lake City, and for slight additional expense you may visit Rocky Mountains, Yellowstone, Mt. Rainier, Crater Lake and Yosemite National Parks.

Connections at Seattle with Alaska Steamship Company, making four different tours to Alaska.

Union Pacific System

Standard Route of the West

Let us help you plan your trip to include all these wonderful places. This assistance costs you nothing and it will help you to spend your money wisely and to the best advantage for the least. Just tell us your season and road today.

Visit the Exposition at Seattle, Wash. and the Exposition at Portland, Ore.

Please send me without cost a booklet, map, brochure, etc., describing the Exposition of California and the Exposition of the Pacific Northwest.

THE STRASSBURG CLOCK.

Its Many Remarkable Features That Make It Famous.

Strassburg, the capital of Alsace-Lorraine, is remarkable for the great clock of its cathedral.

This clock, which is twenty feet in height, was made by Jean Baptiste Schwilgue in 1842. Besides various astronomical devices indicating true solar time, it has a great planetarium in which the revolutions of the planets are represented, so that the relative positions of each at any time can be seen at a glance.

Then on a platform above are movable figures representing the four ages of man. At the first quarter of an hour a child strikes the bell with a rattle; a youth in the garb of a hunter strikes it with an arrow at the half hour; at the third quarter a warrior strikes it with his sword, and at the fourth quarter an old man strikes it with his crutch. Then a figure of Death appears and strikes the full hour with a fleshless bone.

On the highest platform is a natural sized figure of Christ, and when Death strikes the hour at noon the twelve apostles pass before the feet of their master, bowing as they do so. As Peter passes a large cock perched off on one side flaps his wings, ruffles his neck and gives three times a loud and perfectly natural crow.—London Standard.

LIGHTNING RODS.

Why They End in a Sharp Point and Not in a Knob.

The reason a lightning rod has a sharp point is because a fine point offers no resistance to the discharge of electricity and in order that a cloud may be emptied of its noiselessly and harmlessly.

The degree of resistance is in proportion to the surface of the object. If the rod were surmounted by a knob, for instance, the discharge would be violent. But many a lightning rod has received an electrical discharge when the people in the building below were calmly unconscious of the fact. Non-corrosive metal is used for the point of the rod, as corrosion makes resistance.

The difference between a point and a ball is shown in discharging a battery. The full charge from a large battery would be received quietly on a metal point, while a moderate charge from a small one would explode violently on a ball.

It is said that a full charge may be passed harmlessly through a person's body if received on the point of a needle, whereas the same charge received on a discharger with a ball or knob on the end would mean instant death.—London Telegraph.

Mistakes in Use of Words.

If we can make authority in the employment of words it is high time that certain etymologically misused phrases of our English tongue should be adopted into the family of orthodoxy. The word "necessity" is habitually used as the equivalent of "necessary." Instead of being its direct opposite. A man says: "I do not care for the luxuries of life if I have the necessities," when probably he has the "necessities" in clamorous abundance. Quite as common a blunder is the confusion between the words "expect" and "suspect." A man says: "There is a knock at the door. I expect that is the tax collector." He should say, "I have been expecting the tax collector and suspect that is he."—Boston Transcript.

Indians of Ecuador.

Perhaps nowhere on the globe do human beings so much resemble passive beasts of burden as in Ecuador. In fact, the Indians used to be designated in documents as "smaller beasts of burden" to distinguish them from pack animals. Loaded, they clamber up the steep streets as stolid as little gray burros. One sees many an urchin of seven years bearing on his back a load of bricks as heavy as he is. One woman, bent under a burden, carries a child at her breast. Another laden woman plies distaff and spindle as she creeps along. Here is a file of barefoot women bent under loads of earth or bricks escorted by a man with a whip. —Professor Edward Alsworth Ross "South of Panama."

Holland's Windmills.

A man's wealth may be measured by the stocks and bonds he owns in New York, by the cattle he has in Argentina, by the chain of gold eagles his wife wears in Tehuantepec, and so on. But in some parts of Holland the number of windmills a man owns gives the clew to his financial rating. They fight the water, shelter the family, afford an occupation and provide an income for their owners.

The Military Attache.

The duties of a military attache are to make himself thoroughly acquainted with every change that takes place in military affairs and to report from time to time on the mobilization, armament and equipment of the power to which he is to be accredited.

More to Come.

Pessimist—You haven't had all that you wanted in life, have you? Optimist—No, but I haven't had all that I didn't want, either.—Brooklyn Life.

Thieves Don't Like Ducks.

Ducks are good watchdogs for the poultry yard. No matter what time of night the thief may come, the ducks will quack.—Farm and Fireside.

Defined.

"Pop, what's a cynic? A man who is tired of everybody."
"Yes, son, and who tires everybody."
—Philadelphia Ledger.

THOUGHT CHICAGO SHOULD HAVE BEEN RANKED BELOW JACKSONVILLE

John Sheppard, W. H. Anderson and Jewell Scott were first Dokays to reach Jacksonville from Asbury Park where they attended the sessions of the Imperial Palace. It is expected that the rest of the Dokays will reach here sometime the latter part of the week. Mr. Sheppard has only words of highest praise for the manner of treatment accorded while at Asbury Park, but thinks the judges showed some partiality in giving Chicago first honors in the drill contest. They put on a slow military drill which took eleven minutes. Jacksonville had both fancy and military drills being on the floor nineteen minutes. Mr. Sheppard says that seven men of the Chicago team lost out in one drill and that three or four times during the drill they had men outside of the stipulated lines. He thought Peoria deserved a higher rank as they put on some excellent work and were even better than Chicago. During the parade in which 35,000 took part the Jacksonville team was the only one that gave drills during the march and made a big hit with the throngs which lined the streets.

FUNERALS

Wolke.

Funeral services for George Wolke were held from the Church of Our Savior Monday morning at 8:30 o'clock. Services were in charge of the Rev. Father Formax. There was a large gathering of friends and relatives to pay a last tribute of respect to the memory of the deceased. Automobiles were used in the funeral procession and 35 were used to convey the family and friends to the cemetery.

There was a large number of beautiful floral offerings and these were cared for by Mrs. Anna Lohman, Mrs. Earl W. Mickey, Miss Lizzie Ludwig and the Misses Freitag. Interment was made in Calvary cemetery and the bearers were Charles Cruise, J. Bart Johnson, James G. Strawn, Thomas Martin, W. S. Ehnie, Theodore Freitag, L. A. Barnhart and Charles Gibbs.

Vielra.

Funeral services for the late J. J. Vielra were held from Northminster Presbyterian church Sunday afternoon at 2:30 o'clock with the Rev. Walter E. Spoonst in charge. The funeral was largely attended by relatives and friends and served to show the high esteem in which Mr. Vielra was held. The members of the G. A. R., W. R. C. and S. P. P., attended the funeral in a body.

The Rev. Mr. Spoonst preached an eloquent sermon. He took his text from I Corinthians, 15: 54-57. Victory on the Last Battle Field. A few of his thoughts are given. "We have many battles to fight but the one most dreaded is the last, the contest with death. Life is a series of contests. The battles of childhood are by no means insignificant, and they are many. In every stage of life contests continue. The final contest is usually the most feared."

"Thoughts of separation from loved ones rack the mind. Life opportunities are seen to be at an end. We stand on the margin of another world. The time of rendering up the life account is nigh. We approach our final destiny and we meet God."

"Before the battle begins the child of God may rejoice in the coming victory. We'll may he do so for this will at the same illustrate his faith in his redeemer and brighten all his earthly course. That which is dreaded as a disastrous defeat is rejoiced in as a glorious and all important victory."

"Christian biography is rich in death triumphs. Thomas Rutherford in the last fight exclaimed, 'He has indeed been a gracious Christ to me and now I feel Him to be my Rock, my Strength, my Rest.'"

"Victory on the last battlefield comes alone through Christ. Without Him our life will close in disaster and ruin. Suddenly the conflict may come to us."

Music was furnished by the choir of the church. There were many beautiful floral offerings and these were cared for by Mrs. Baumgardner, Mrs. Lena Foster, Mrs. May Merritt, Mrs. John Hopper.

Interment was in Jacksonville cemetery and the bearers were old soldiers: C. E. McDougall, C. Riggs Taylor, W. H. Jordan, A. P. Vasconcellos, Alfred Souza, August DeFrances.

Haskins.

The funeral of Mrs. Dora E. L. Haskins was held at 10 o'clock Sunday morning from the residence of Len G. Magill, on South Hardin avenue. The Rev. David Heagle was in charge. Miss Laura Hayden, with Mrs. J. P. Brown as accompanist, sang "Face to Face." There were a number of floral offerings and these were in charge of Misses Eleanor and Lucille Ironmonger.

Interment was made in Diamond Grove cemetery and the bearers were: Dennis Schram, R. C. Reynolds, T. H. Rapp, Charles Glossup, Joseph Shreve and A. B. Williamson.

FIRE DEPARTMENT CHANGES.
James Samples and Earl Butcher who have been serving in the fire department, have given up their positions and Commissioner Martin has appointed Harold Elliott and James Hurst to serve temporarily. Permanent appointments will not be until later.

TO DINE AT COUNTRY HOME.
W. E. Hall and daughter Rachel and Mrs. Armstrong of South Main street will eat fried chicken at the home of J. H. Patterson, northeast of the city today.

OKLAHOMA GOVERNOR DOES NOT APPOINT FRANK READ, JR.

Superintendent C. P. Gillett of the State School for the Deaf, has received a letter from Frank Read, Jr., superintendent of the Oklahoma State School for the Deaf, in which he says that the governor, for political reasons, has not reappointed him. The governor in a letter to Mr. Read, expressed his confidence in him and the splendid work he is doing, but would be forced to let him out, because of "conditions over which I have no control". Mr. Read is widely known as an educator among the deaf and it is not thought by his many friends in Jacksonville that he will be long in securing a desirable position.

Every day this week dollar day
SIX PAIRS HOLEPROOF HOSE
FOR ONE DOLLAR. Guaranteed for six months.

LUKEMAN BROS.

TOM WELDAY GETS WORSTED.

According to the Peoria Journal of Sunday, Tom Welday of this city had a fight in Peoria Saturday in which he got decidedly the worst of it. It seems that Welday went to Peoria to see a wife with whom he has not been living for two years. He saw her walking along the street with an individual named Tee Washington. Welday, according to the story in the Journal walked up and kissed his wife and Washington took exception to such familiarity and proceeded to beat Welday up with a large gun. Welday was cut about the head and face and was taken to a hospital for repairs.

CHAUTAQUA TICKETS.

Season tickets for the Jacksonville chautauqua can be had at the Journal office for \$1. Single admission on Bryan day costs 50c. A ticket good for all the attractions of the chautauqua costs but \$1.

KAISER MERCHANTS

BEAT AUBURN.

The Kaiser Merchants of Alexander beat Auburn at Auburn Sunday by a score of 6 to 2. The feature of the game was the pitching of Pate for Alexander who struck out sixteen men. Blanchfield for Auburn struck out 7. Pate walked four men and Blanchfield 2.

Score:

Alexander—6 8 2

Auburn—2 3 3

Batteries—Alexander: Pate and Moody; Auburn: Blanchfield and Keller.

TO ATTEND CONVENTION.

Dr. Elizabeth E. Wagoner left for Portland, Ore., Monday, where she will represent this district at the national convention of osteopaths to be held the first week of August. She will also visit the exposition and returns to the city about Sept. 12.

WINCHESTER

Hon. A. P. Grout, who was injured in a runaway, is slowly improving, although it will be some time before he is able to be out again.

Miss Winnie Barret of St. Louis is here visiting her parents, Mr. and Mrs. James Barret.

Guy Paul went to Beardstown Sunday and returned home with his nephew, Leo Boylan, in Mr. Boylan's car.

Miss Marie Hamilton has returned from a visit in Alsey.

Miss La Fern Randolph left Sunday for Canton, where she will visit with the family of M. A. Henderson.

Fred Cowlick arrived Sunday from Peoria to spend his vacation with home folks.

Miss Cora Vannier of Bluffs is visiting with her uncle and aunt, Mr. and Mrs. Henry Vannier.

R. L. Gasen and Mrs. Frank Mason and Mrs. Dwight Obermeyer spent Sunday in Chapin.

Mr. and Mrs. Joseph Miller and son Harry of Dwight arrived in their Hudson car Monday afternoon and Mr. and Mrs. Steadman of Indianapolis, Ind., are guests of Albert and David Hainsfurther.

Clark Taylor, Newton Moore, Emory Beird and David Hainsfurther of Bluffs visited in Winchester Monday.

Fred Borum arrived in the city Monday from Muskogee, Okla. He will leave here for Jacksonville and Springfield and will also make a business trip to New York before returning to his home.

BIDS FOR SCHOOL SUPPLIES.

Sealed bids for furnishing school and janitors' supplies and chemicals in accordance with lists on file in the office of the clerk will be received until noon Saturday, July 31. The board reserves the right to reject any or all bids.

R. L. Pyatt,
Clerk of the Board.

GUESTS IN DECATUR.

Mr. and Mrs. Frank P. Vickery of Grove street, have gone to Decatur where Mrs. Vickery will make a visit at the home of her aunt. Mr. Vickery will attend the Central Illinois Trapshooters league shoot there and then he will go to Chicago for a visit at the home of his brother Clyde.

ATTENDED HOUSE PARTY.

Misses Ruth Hillierby and Mayme Kennedy returned Monday evening from Waukegan, Ill. where they attended a house party given at the home of Miss Louise Giffman, a former student of Illinois Woman's college.

Miss Lena Slagg has gone to Detroit, Mich., to visit her sister. She expects to return about the first of September.

ILL FINISH OILING

STREETS AT WINCHESTER

W. H. Cocking will have a force of men at work today in Winchester finishing the oiling of the streets of that city. He has already put on 8,000 gallons of oil and expects to put down a similar amount now. All the main streets from the square out are practically oiled and most of the oiling is being done in the north part of the town. The city had made a contract with a sprinkling firm for sprinkling the square and this contract does not run out until late in the fall. Negotiations are now being made with Mr. Cocking to do this work next year.

Oil for Mound Road.

Residents along the Mound road are now being interviewed relative to oiling that thoroughfare to the Point church. The outlook is favorable for the work being done.

DOMESTIC SCIENCE CLUB.

The Social Domestic Science club met at the home of Mrs. Hannah Merriweather on South Kosciusko street, recently with a large attendance. The guests of the club were Mrs. McIntyre of St. Louis, Miss Christburg of Galesburg and Mrs. Ogden of Jacksonville. A shadow picture contest was engaged in. Mrs. Frank Weir winning first prize and Mrs. M. B. Davis second prize. An impromptu program was much enjoyed after which Rev. Mr. Merriweather made some interesting remarks. Refreshments were served by Mrs. Merriweather, who was assisted by Mrs. Mary Robinson, Mrs. Mattie Jackson, Mrs. Catherine Halthman. The next meeting will be with Mrs. Thomas Parker the third Friday in August.

HOPES TO BE OUT SOON.

W. I. Tilton, who is a patient at Our Savior's hospital, has written the Journal as follows:
"Dear Boys: I am still good for a few more ball games, though I did have two and two on me this time. However, I managed to hit safe and good team work brought me around. Hospital life isn't one round of pleasure, but the Journal, with its scores and Morning Glances helps to make the time pass. I hope to be out before very long and it will feel good to get around once more and watch you edit."
"W. I. Tilton."

LOCAL CITIZENS AT

MACATAWA BAY.

A correspondent of the St. Louis Globe-Democrat says:
"Late arrivals at Macatawa Bay include John Drey, St. Louis; Rev. and Mrs. Jean Vis, New Sharon, Ia.; Edward Tomlinson, T. M. Tomlinson, E. M. Dunlap, Jacksonville, Ill. This party is out on the Michigan Pike in a touring car, making the best known of the west coast places."

TERRANCE BRENNAN HAS NARROW ESCAPE FROM INJURY

Nichols Park Commissioner Was Struck in Breast by Stray Bullet—Boys Were Shooting at a Mark.

Terrance J. Brennan, a commissioner of Nichols Park, had a narrow escape from death Sunday morning when he was hit by a bullet from a revolver fired by a boy who was shooting at a mark. Mr. Brennan with Joseph Gomes, another park commissioner, was at Nichols park where they had been inspecting a water system which had recently been installed. They were returning to town and walking along the concrete walk toward the main park entrance. Suddenly Brennan staggered back and Gomes asked him what the matter was. Brennan as soon as he could got his breath, said he had been hit. On his shirt directly over the heart was a black streak about an inch long. On opening his shirt Mr. Brennan found that the skin had been broken. He had heard a singing noise just before he was struck and knew that it was caused by a bullet. They started to investigate and found several boys on the Alton railroad. One of them had a revolver and was shooting at a mark. It was one of the bullets, glancing off of a fence post that had struck Mr. Brennan. The boy was taken in charge and turned over to his father. It was fortunate that the bullet did not strike squarely for the result would have almost certainly been serious for Mr. Brennan.

BURLINGTON WAY BOOSTERS INTERESTED IN ROUTE.

Membership of Club Has Increased Through Efforts of Leroy Craig.

Leroy Craig is still working to increase interest in the Burlington way. At a meeting held here last winter, when a banquet was given in Central Christian church, Mr. Craig was busy and at that time he secured the names of a number of boosters for the Burlington Way. This club is known as Burlington Way Boosters. The members are: Walter Lonergan, H. K. Snyder, W. J. Brady, G. W. Davis, J. G. Capps, J. W. Cleary, Grant Graff, W. F. Todd, Charles B. Graff, J. B. Corrington, F. L. Hairgrove, William Heald, Journal Co., W. H. Self, Dr. W. H. Weirrich, H. H. Vasconcellos, L. W. Brown, J. A. Munson, J. H. Cain and Sons, N. Klendall, H. C. Gay, B. G. Graff, J. T. Sharpe, L. H. Krause, J. N. Van Valzah, J. K. Patterson, H. Jay Rodgers, C. S. Copp, Wilfred Ayers, Joseph Burgess, E. P. Brookhouse, J. N. Conover, H. D. Lavery, V. L. Lavery, O. E. Tandy, C. F. Anderson, R. I. Dunlap, Henry Smith, George R. Cain, C. A. Carter, Mattoon, P. H. Garbers, Peoria; D. N. Talmage, Springfield; W. F. Rogge, Meredosia; the McFarlan Motor Co.

The U. C. T. local order have made Mr. Craig chairman of this district and Walter Lonergan has been made chairman of this district by the U. C. T. These gentlemen will work together on the work of good roads in this section and it is hoped that great good will result from their efforts.

COURT OF HONOR

HOLD GOOD MEETING.

The Court of Honor held an enthusiastic meeting Monday night. There was a large attendance of members and five applications were voted upon and ten more presented for future action. The local branch of the order is working up a big class and have a special deputy, Louis E. Hodge, in the city assisting them. At the meeting Monday evening C. J. Reifler, editor of the official paper of the order was present and made an interesting address. Mr. Reifler spoke of the plan now in process of formation to build a home for the tubercular, members of the order and also a home for orphans of members. Details are being worked out and both will no doubt become realities within a few years. After the business session a social hour was enjoyed and ice cream and cake was served.

CHAUTAQUA TICKETS.

Season tickets for the Jacksonville chautauqua can be had at the Journal office for \$1. Single admission on Bryan day costs 50c. A ticket good for all the attractions of the chautauqua costs but \$1.

REMOVING POLES.

Supt. Stoldt of the municipal light plant with his assistants was engaged yesterday in the work of removing a number of wooden electric light poles from the square. Brackets have been attached to these poles with incandescent lamps, but since the boulevard lighting system has come into use the lamps were not needed. Most of the poles have been in service for a number of years and their removal makes quite an improvement in the appearance of the square.

BIDS FOR COAL.

Bids are hereby asked for supplying the city of Jacksonville with coal in accordance with requirements contract to take effect August 8, 1915, and to continue for one year. Bids to be received until 10 a. m. July 31, 1915, are asked as follows:
Pumping station: mine run 1 1/2 inch lump and 3 inch lump coal.
Municipal light plant: No. 2 nut, 2 inch screenings, 1 1/4 inch screenings, slack, No. 5 washed, No. 4 and 5 mixed washed, pea coal.

All coal is to be weighed upon the city scales at the pumping station or the city building as directed. Successful contractor will be required to furnish satisfactory bond in the sum of \$3,000. The council reserves the right to reject any and all bids.

R. L. Pyatt, City Clerk.
